

# Gerardo García

## Frontend Developer

[garcialopezgerardo6612@gmail.com](mailto:garcialopezgerardo6612@gmail.com) • [Portfolio](#) • [Github](#)

I have one year of experience thanks to personal projects. I use React and TypeScript on a daily basis, and I am also learning to use Vue. I try to stay within the JS ecosystem.

### FEATURED PROJECTS

---

#### Afordibot

[Demo](#)

A web application similar to "[elpatobot](#)" with some additional features. It includes a custom word counter and a connection to a database to store weekly, monthly, and overall data. This data is displayed in real-time on the application's frontend.

- Made it with **React**, **TypeScript** and **Styled-Components**

#### Red Panda Script

[Repo](#)

A cybersecurity tool for Server Side Template Injection (SSTI) vulnerabilities. It was created in **Python** with the purpose of exploiting a [machine](#) on the HackTheBox platform.

#### Cinephoria

[Demo](#)

A website based on The Movie Database (TMDB) API that provides detailed information about a wide selection of movies and TV shows. On this platform, users can explore the movie catalog and obtain information about each title, such as the genre, title, and additional details.

- Made it with **React**, **TypeScript** and **Styled-Components**

### EDUCATION

---

#### Mechanical Engineering in Injection Processes

American University Northeast [2020-2024] (in progress)

### WORK EXPERIENCE

---

#### ABC Technologies

**August 2018 - August 2020**

I have performed multiple roles, excelling in the supervision, management, and leadership of diverse teams. The versatility of these positions has allowed me to acquire technical and problem-solving skills, as well as interpersonal competencies and agile adaptability.

### ACHIEVEMENTS

---

#### Hackathon - First place

Recognized as the winner of the first place in the "Hackafor" hackathon on Twitch, a two-week development challenge. My team and I achieved this success through our collaboration. I was responsible for frontend development, creating an appealing and functional interface for the user experience.
